## UPRIGHT FLOOR CARE SYSTEM

### The Value Of A Clean Floor

If carpet and hard surface floors are not cleaned regularly, dust, pollen and other allergens circulate in the air. Also, dirt and soil trapped in the carpet will act like sandpaper, wearing away and diminishing the attractiveness of the carpet. Vacuuming carpet and upholstery every week can help reduce indoor air pollution as well as protect your carpet and hard surface floors. Trust the quality and durability of the Lux Commercial Vacuum by Aerus to clean away harmful contaminants. Aerus, the first name in quality home care products, also offers the first choice in professional floor care equipment, the Lux Commercial Upright. The Lux Commercial vacuum tackles the toughest cleaning jobs. Lightweight and easy to use, its heavy-duty construction provides faster and better cleaning, with much less effort.

#### Cleaner Air

Airborne contaminants are captured by an optional HEPA filter to remove 99.97% of allergy and asthma causing particles, as small as 0.3 micron, from the air.

#### Added Quality

Redefined vents for greater airflow reduces motor temperature and adds to the life of the motor.

#### Extra Long Life

Heavy duty carbon brushes provide extended motor life.

#### More Versatility

Powerful 2-motor system can handle carpet and bare floors with equal efficiency.

#### Greater Convenience

A 50-foot, 3 wire grounded, commercial-duty cord features greater flexibility and high visibility. The cord can be replaced without disassembly of the unit.

#### Built In Protection

Extruded, non-marring bumper is easily replaced. A built in thermo coupler protects the motor by shutting it down if it overheats.

#### No Worries

A 1-Year Limited Warranty is offered on Lux Commercial Upright Vacuums.

#### Unique Cleaning with L-Shape Design

The unique L-shape designed power nozzle provides front, side and rear cleaning around table and chair legs and an extra wide 15" cleaning path covers more area for faster cleaning.

#### Commercial Construction

Frequently used components like hinges and covers include additional design features to prevent breakage and extend useful life.

#### Designed For Durability

A reinforced power nozzle, bag housing and handle provide added durability and an extra long life.

#### Innovative Performance

Comprehensive System Performance Indicator alerts you when a new filter bag is needed as well as the status of the power nozzle.

**WORRY FREE**  
1-year limited warranty

For convenience, the accessory port is located within easy reach at the top of the unit
